

Warehousing and Transport Manager

The Warehousing and Transport Industry sector is one of the largest areas of employment in the country. There is an ever increasing demand on companies to comply with Irish and EU legislation. This sector has been identified as a strong growth area in Ireland's recovery over the next number of years. The Swilly Group has worked closely with major Transport & Logistics employers, industry representative bodies, City & Guilds and the Chartered Institute of Logistics & Transport (CILT) to develop this cutting edge programme. The Warehousing and Transport Manager programme is designed to allow the learner to gain the necessary skills, knowledge and experience to allow them to take up a management position in a Warehousing and/or Transport Company.

The course will cover the following core elements:

- Certificate in Transport Management (CILT)
- Occupational First Aid (FETAC)
- Customer Services (FETAC)
- Warehousing & Storage Skills (C & G)

he learners will complete a 10 week work placement in a warehousing or transport company where they will gain experience in Warehousing and/or a Transport environment. They will also gain an insight into the day to day operations and work environment of such a company.

Testimonial

"Instructors from the Swilly Group have delivered Driver CPC, Digital Tachograph and Health and Safety training to our drivers over the last few years. I have to say I was more than happy with the overall service from the Swilly Group. They arranged the courses at times and a location which caused minimum disruption to our services, which was important. Their instructors were excellent and generated a relaxed atmosphere in the class. The Sweeney lads are very approachable and I consult with Brian and Stephen from time to time on driver's hours, tachograph or health and safety issues. Their prices are competitive and they never fail to deliver a good service. I would have no problem recommending their services to other coach operators".
